Knowledge and Experience

BRAMMER has a wealth of knowledge and experience in the aggregates and construction sector.

- **Market share**

BRAMMER is a contracted MRO supplier to the leading UK aggregate and construction companies including:

- CEMEX
- Hanson (HeidelbergCement)
- Holcim Group (Aggregate Industries)
- Lafarge
- Tarmac

- **Understanding**

BRAMMER understands the key issues facing the sector:

- MRO product availability
- health and safety
- heavy loads
- vibration
- energy consumption
- wet and dusty environments
- extreme temperatures
- round-the-clock production

- **Adding Value**

BRAMMER's market-leading position, specialist expertise, international strength and local presence help it add value:

- buying power reduces parts acquisition costs
- introduction of production line efficiencies
- train customer staff in MRO management and best practice
- have BRAMMER employees work at customer sites – InSite Services
- standardise customers' MRO purchases and rationalise their suppliers

- streamline and consolidate invoicing
- profile stock holding against critical needs, eliminating over or under stocking

- **Products**

Among the products BRAMMER supplies to the sector are:

- spherical roller bearings
- gearboxes
- high performance chains
- self-aligning bearings
- gland packings
- polyurethane synchronous belt
- caged ball linear motion
- air preparation
